#WeAreFairphone

Building A Phone To Create A Fairer Economy

Moving Towards A Conflict-Free Supply Chain

Two approaches combined:

- Top - Down:
traditional risk-based due diligence
- Bottom – Up:
integrating responsible initiatives

FAIRPHONE

List of suppliers for First Edition Fairphone (FPI & FPIU)

Fairphone aims to open up supply chains and offer greater transparency into production processes and the sourcing of materials and components.

The below list of suppliers represents the first steps Fairphone has made to uncover all of the materials included in the first edition Fairphone, as well as where they come from. This list is by no means comprehensive.

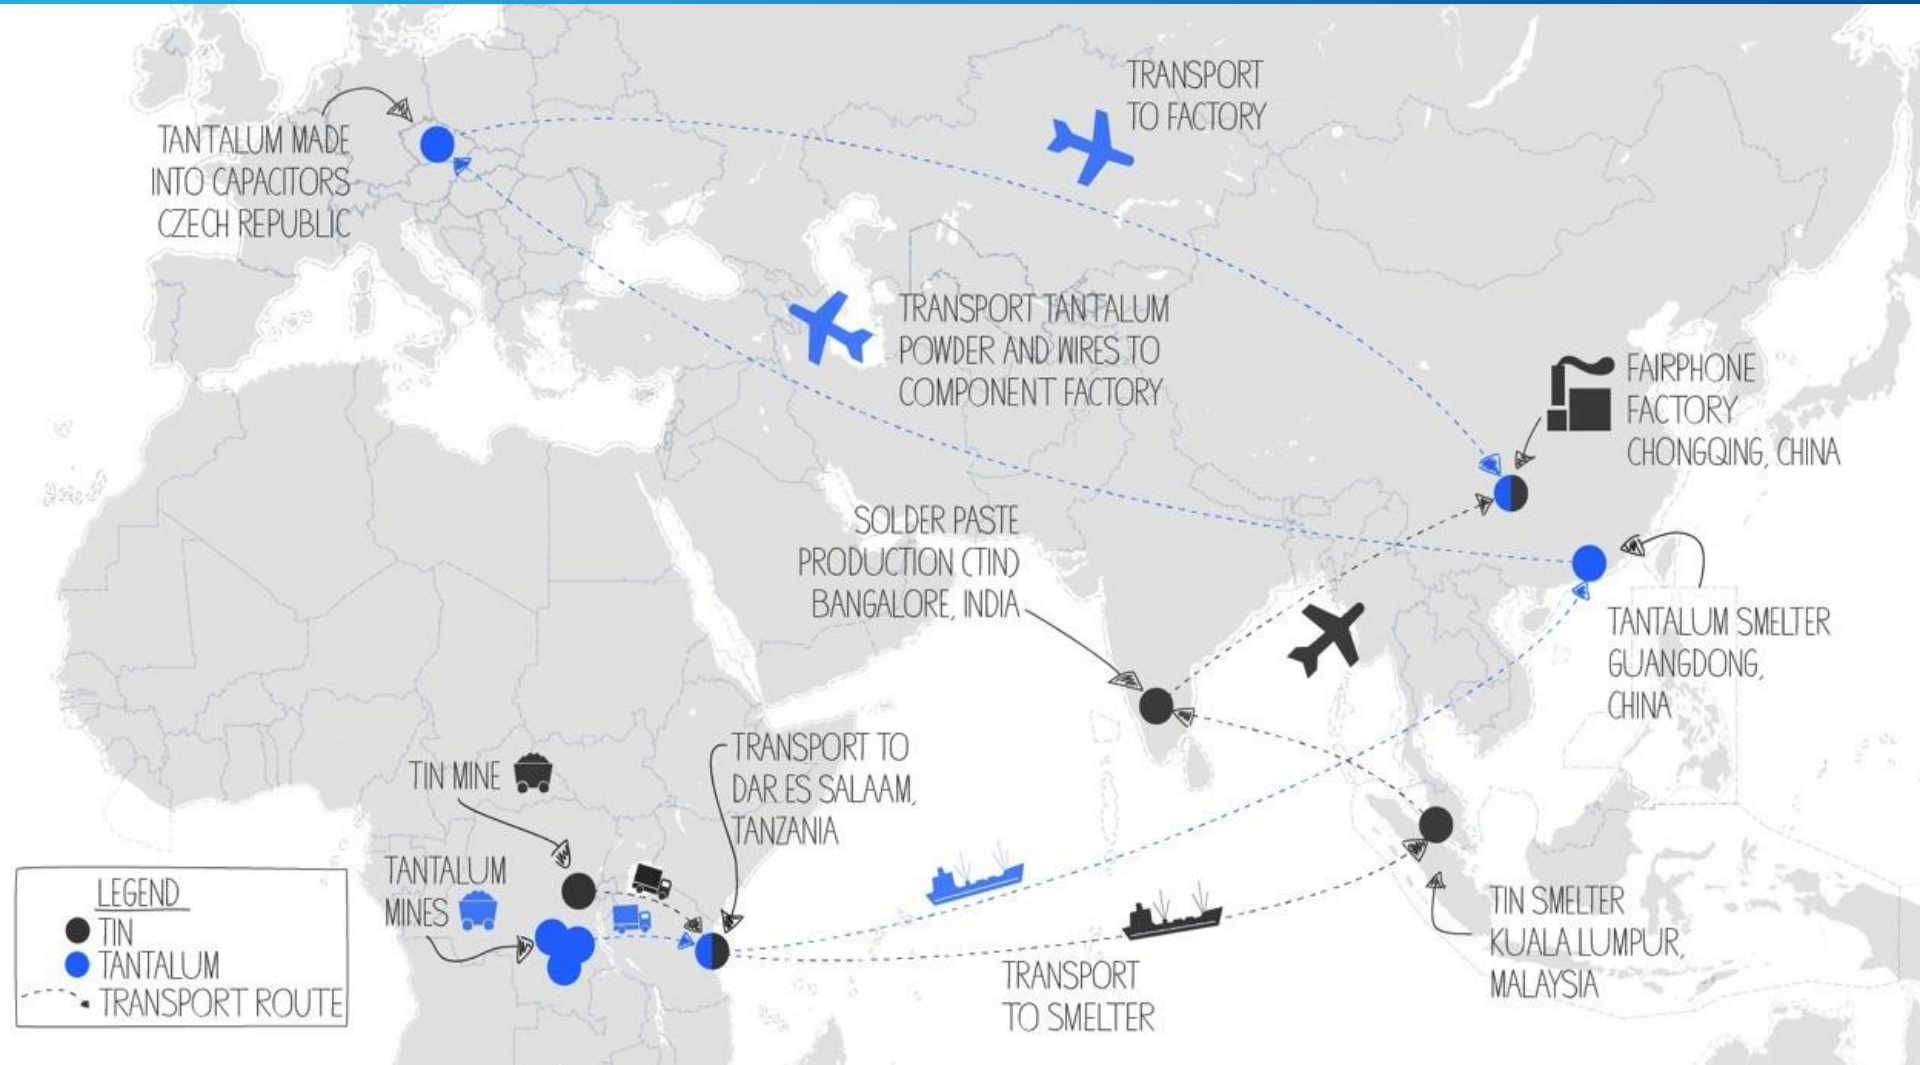

Category	Item	Supplier	Based in	Website / Address (when no website is provided)
Platform chipset	System SOC	MediaTek	Taiwan	www.mediatek.com
Embedded System Memory	Embedded Memory Package (LPDDR2 & eMMC NAND Flash)	SanDisk	USA	www.sandisk.com
Radio / Modem	Transceiver	MediaTek	Taiwan	www.mediatek.com
	2G Quad Band RX/ TX Module	RFMD	USA	www.rfmd.com
	3G PA Modules	Skyworks	USA	www.skyworksinc.com
Power Management	3G UM TS SAW Filters	EPCOS	Germany/Japan	www.epcos.com
	PMIC	MediaTek	Taiwan	www.mtk.com.tw

New Challenges, New Partnerships

Digging deeper - the bottom up approach

Broaden the Discussion!

Raw Materials and Circular Economy

Create and Close the Loops:

- **Design: longevity, reparability and recyclability**
- **End-of-Life: product take-back and recycling**
